CLSD’s plan is a proactive approach for reopening & maintaining a consistent, safe, and quality educational program for the Coventry students, families, and staff.

### PHASE 1
- **In-person or Virtual**
  - Parent Choice: In-person or CVA
  - Both Options: Full-time – 5 days a week
  - In-person: Safety measures & Protocols in place

### PHASE 2
- **Remote Learning**
  - Remote learning: 5 days a week for all students

### PHASE 3
- **Hybrid Option**
  - Hybrid Options include: K-6/7-12 or AA-BB schedule

---

**Hybrid Option - a blended schedule.** This means students would attend school through a combination of in-person and online learning.

### Potential Options

**Option 1:** K-6/7-12 - Students in grades K-6 will attend school 5 days a week. Students will be spread out throughout the district. Grades K-2 will remain at CES, 5 & 6 will remain at CMS, and 3 & 4 will relocate to CHS. This will provide more space and opportunity for social distancing, while maintaining a consistent instructional approach. Students in grades 7-12 will participate in remote learning for 5 days a week. Students will interact with teachers and classmates through video conferencing and the Google Classroom platform, using the district provided Chromebook devices.

**Option 2:** AA-BB - Students (K-12) will be separated into 2 groups, an A group and a B group. A group will attend school in-person on Mondays & Tuesdays. Then, A group will participate in remote learning Wednesday through Friday. B group participates in remote learning Monday through Wednesday. Then, B group attends in-person school on Thurs. & Fri.

---

**WHEN WILL WE SWITCH FROM ONE PHASE TO THE NEXT?**

**MOVING BETWEEN PHASES - KEY POINTS:**

- **On 7-15-2020, Coventry initiated Phase 1 of the district’s Reopening Plan.** This Phase gives students the option to either return to in-person learning, 5-days a week, M-F. **OR** Students can enroll in the district’s virtual learning program. This program is called the “Coventry Virtual Academy”.

- Phase 2 may be implemented if any of these scenarios happen: local/state mandate school closures, a positive case or outbreak of the virus happens in the schools, the county continues to experience an increase in COVID hospitalizations, overall cases, or a move to the state’s purple advisory level.

- Switching to Phase 2 could happen very quickly. All families and staff should be prepared for Phase 2 to be initiated at any time.

- Once in Phase 2, the district will remain in this Phase, for a minimum of 3 days, to adjust and prepare for the next Phase.
  (Note: Timeframe is subject to change, based on pandemic conditions, at the time.)

- Phase 3, or the Hybrid plan, will happen if the requirements for returning to school change or become even more strict. Depending on the guidelines, at that time, along with how those circumstances impact our local district, one of the potential Hybrid options will be put into action.

---
Face Coverings
Per the district's facial coverings policy, masks or shields are required for all students, staff, and visitors to the building. Face coverings must be worn in the buildings, on buses, and when social distancing is not maintained.

Proper Hygiene:
Students will participate in scheduled hand-washing throughout the day. Hand sanitizing stations will be located throughout the building, including in the classrooms.

COVID Cleaning & Sanitization Efforts:
Daily cleaning protocols include the use of specialized disinfectant material. In addition, approx. every 15 days, a medical-grade disinfectant will be used throughout the buildings to add an extra layer of sanitization.

Social Distancing:
Desks are spaced apart to the extent possible and assigned seating will be used throughout the day, including the classrooms, cafeteria, and on school buses.

Symptoms Check:
Each morning, parents are asked to check their child for key symptoms such as: chills or fever (100.4°F or higher), loss of taste or smell, cough, running nose, vomiting, diarrhea, sore throat, or headache. In addition, students will have symptoms checks completed upon arrival to school.

Dear Parents,
In order for the district to successfully reopen the school buildings, maintain in-person instruction, and provide an ongoing clean and safe environment for the students and staff, we need your help. Please partner with us to ensure that the safety measures, protocols, and new guidelines are followed each and every day.

Here are a few additional actions that you can do to support Coventry School's efforts:

* Personally follow the district's new safety measures, protocols, and guidelines for keeping our students and staff safe.
* Talk with your child about, and reinforce, the importance of following the new safety guidelines.
* Be prepared to send your child(ren) to school, each day, with a clean face mask and a bottle of water. (Children will be able to refill water bottles at school.)
* Please keep your child(ren) at home if they show any potential signs or symptoms of illness.
* We need to get ahold of you, at all times. Help us do this, by making sure your contact information is available and updated.
* If your child is sick as school, it will be critical for them to be picked up, as quickly as possible. Please provide your child’s school with multiple ways to get in touch with you, or people who can pick your child up quickly.
